

Why Do Patients Choose Grand View Health?

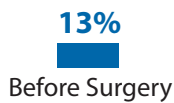

JOINT REPLACEMENT SURGERY RESULTS

Grand View Health's data is based on hip and knee surgeries performed during **October 2017 – September 2018**.

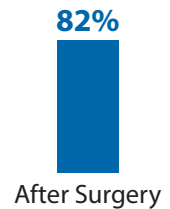

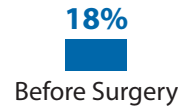

DRASTICALLY IMPROVED QUALITY OF LIFE

Grand View Health's patients are generally back to normal activities 4 weeks after surgery.

Mild to no pain
when walking

Mild to no difficulty
rising from sitting

PATIENT EXPERIENCE

Grand View Health's patient satisfaction scores are better when compared to other national and regional hospitals.

Overall Satisfaction

Definitely Recommend

RAPID RECOVERY AND TRANSITION BACK HOME

Grand View Health's patients leave the hospital sooner, and more go directly home vs. a rehab facility.

of Days in the Hospital

% of Patients That Go Directly Home

LOW READMISSION RATE

Grand View Health's rate of complications related to surgery is LOW (including infection, blood clots, severe bruising, severe headaches).
