

# Grand View Hospitalists

## About Our Hospitalist Team

The Grand View Hospitalist team is dedicated to providing you with the highest level of personalized care during your hospital stay. With strong backgrounds in general and critical care medicine, our Hospitalists focus on caring for patients while they are hospitalized, managing care from diagnosis through treatment. A Hospitalist is available within the hospital 24 hours a day, seven days a week.

Our Hospitalists' practice is limited only to inpatient treatment but our team works with your primary care and specialty doctors and other community resources to coordinate your post-discharge care.

## Inpatient Services

- Daily, personalized care during hospital stays
- Quality hospital care from diagnosis through treatment
- Coordination with primary care and specialty physicians for current medical information and post-discharge care
- Our Hospitalists see only hospitalized patients during inpatient treatment

## Post Acute Services

Following a hospitalization for injury or illness, many patients require continued medical care. Post-acute care specialists support a patient's recovery and manage chronic illness and disabilities. These physicians provide additional care outside the hospital setting in skilled nursing, long term acute-care or inpatient rehabilitation facilities.

## LOCATIONS

Grand View Hospital  
700 Lawn Avenue  
Sellersville, PA 18960
