

# Why Do Patients Choose Grand View Health?

## JOINT REPLACEMENT SURGERY RESULTS

Grand View Health's data is based on hip and knee surgeries performed during **April 2018 – March 2019**.

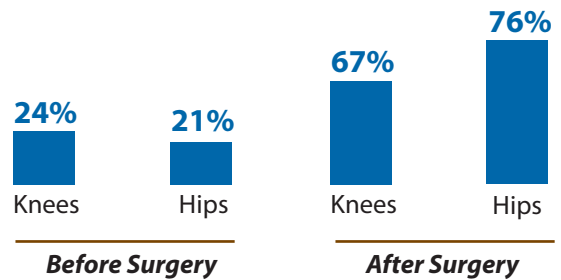

### DRASTICALLY IMPROVED QUALITY OF LIFE

Grand View Health's patients are generally back to normal activities 4 weeks after surgery.

Mild to no pain going up/down stairs

Mild to no difficulty rising from sitting

### RAPID RECOVERY AND TRANSITION BACK HOME

Grand View Health's patients leave the hospital sooner, and more go directly home vs. a rehab facility.

# of Days in the Hospital

% of Patients That Go Directly Home

### LOW READMISSION RATE

Grand View Health's rate of complications related to surgery is LOW (including infection, blood clots, severe bruising, severe headaches).
